## TELEGRAMS

*(via Galveston.)*

London, 27th — Telegrams from Washington say that Minister Blaine has stipulated with the British Minister for a conference to be held there by the English and North American Commissioners who visited Alaska last summer. This conference will be purely preliminary, with a view to arrange bases for submitting the Behring Sea Fishery question to arbitration.

Berlin, 27th — The Reichstag has resolved to submit to arbitration the difficulties that have arisen in connection with the Zollverein Treaty.

Vienna, 27th—The pianist Moritz Rosenthal is creating a furore. The critics compare him to Rubenstein. He is a pupil of Listz.

Washington, 28th—The greatest reserve is still maintained as to Chile's reply to the ultimatum, and which is known to have been received yesterday. The Government positively refuses to give any information on the subject. Public anxiety is still increasing. Private advices from Chile are by no means satisfactory. The Cabinet is divided on the subject.

London, 28th—The *Times* publishes a message from its correspondent in Santiago, who says that the position of Minister Montt in Washington is very awkward, in spite of the pacific declarations of Mr. Blaine.

Berlin, 28th—The 33rd anniversary of the birth of Emperor William was celebrated yesterday.

Rome, 28th—In view of the frequent riots amongst the students of the University, Government has announced that it will resort to energetic measures to suppres them.

Brussels, 28th—The news that the Bank of England has accepted the conversion of the Uruguayan Debt has caused great excitement amongst the Bondholders in Belgium, who hold 200,000,000 of francs in the security. At a meeting held this afternoon it was decided to oppose the conversion.

Madrid, 28th—The latest advices from Bilbao report that the police have discovered a store of dynamite. The discovery was made after a fight between 600 men and a company of the Civic Guards, who were attacked with stones and had to use their arms in self-defence. Many arrests were made.

Washington, 28th—The President of the Foreign Chamber of Commerce has announced that Chile's answer is in the fullest sense satisfactory. Nevertheless, the rumour runs that President Harrison is not satisfied, although Mr. Blaine considers the reply acceptable. Congress is now considering it. The naval preparations continue, in the probability of a squadron being sent to Chile.

Paris, 28th—Cardinal Richard, Archbishop of Paris, refuses to obey the Pope's orders to the clergy to abandon opposition to the Republic, in compliance with the conciliatory policy of the Vatican. It is believed that the Royalists have influenced His Eminence.

London, 28th—The Queen has expressed her thanks for the public sympathy with her on the occasion of the death of the Duke of Clarence.

New York, 28th—The steamer Mary has arrived from Rio, having had on the high seas three fatal cases of yellow fever.

Rome, 28th—Cardinal Lavochowski has been appointed Prefect of the Propaganda Fide, vice Cardinal Simeoni, deceased. This nomination has caused great surprise in all circles.

## GRAND TRUNK URUGUAY.

We received advices yesterday from Tacuarembó, to the effect that the Grand Trunk Railway of Uruguay has been successfully completed by Mr. Robert Crawford and his staff of engineers, after 3½ years of arduous labour, the line terminating at Rivera on the Brazilian frontier (Santa Ana), which point is distant from Montevideo 352 miles almost due north.

When the works were begun in August 1888, the Central Uruguay Railway reached no farther than Paso de los Toros, on the Rio Negro, 170 miles from Montevideo. The intervening country from there to Santa Ana was little better than a howling wilderness, destitute of roads, bridges or communication, and almost devoid of houses or population. The section now completed from Paso de los Toros to the frontier is 182 miles, and the difficulties attending the construction were of no common kind. One of the engineers writes us as follows:—

"We have had to cross numerous "deep streams. The country is very "rough, the works have been heavy, "and we have suffered so much fatigue "and exposure, in these three years, "that we are glad we have reached the "end. The heat has been much greater "than anything we have known in the "Argentine republic; last year often "reaching 108 and sometimes 110 in the "shade, and this year 90 to 95°.

The immediate result of this Grand Trunk line to Brazil will be to open up a vast tract of fertile land hitherto comparatively valueless. If we include merely a zone of 10 leagues on either side of the section from Paso de Toros to Santa Ana this will comprise an area of 1200 square leagues or 8,000,000 acres, which is little less than the area of Belgium; all this will now be brought within easy contact of Montevideo.

Some years ago we had occasion to make a journey with Mr. Jackson from Tacuarembó to Montevideo in a carriage, and such were the difficulties of the route that we were twelve days travelling 350 miles. By the railway now completed the journey can be done in twelve hours. Moreover, travelling will be much more secure than formerly, when "matreros" infested all the passes of the rivers. In a word the new line will bring civilization and progress.

As soon as the Rio Grande and Pelotas line reaches Santa Ana there will be direct railway communication between Montevideo and those two important cities of Southern Brazil. This will afford admirable facilities for trade, and possibly a considerable commerce in transit will be brought to Montevideo, which has more traffic with Europe than either of the Rio-Grandense ports.

Mr. Crawford has added another to the list of his engineering works. His first task, some 35 years ago, was in connection with the Victoria Bridge at Montreal. He came to Buenos Ayres in 1864 to make the G. Southern Railway. He has since travelled and wrought in many parts of Europe. Contrary to the scriptural adage, he is highly honored in his own country. The university of Dublin has conferred on him a doctor's cap and the rank of Professor of Engineering; that of Cambridge has bestowed on him the degree of Master of Arts.

We congratulate him on having completed the Grand Trunk line of Uruguay, and only regret that he has not been able to visit the old friends in this city who knew him 30 years ago. Perhaps he may yet have time to come over here for a short time before his return to Europe: we promise him a hearty welcome.

## THE TRENT MAILS.

London, 5th January.

A noisy meeting of Bateman Legacy holders took place on the 29th ult., Mr. Grenfell, Mr. George Drabble, Mr. Robson, Col. Jaque and other well-known gentlemen being present. One gentleman spoke of the documents as "the waste-paper of a bankrupt government," a second enquired about special payments, a third complained that the shareholders had been kept in the dark. Mr. Mallmann also protested against the whole business in the strongest manner, but the motion of Mr. Drabble's friends was carried by 65 to 14. Mr. Grenfell made no further allusion to Juarez Celman, Wilde or King James II.

The remains of the late Prince Victor of Hohenlohe-Langenbourg were interred yesterday in the churchyard at Sunningdale. The service was attended by Count Edward Gleichen, the only son of the deceased, his brother Prince Hermann, the Prince of Wales, and several members of the Royal family. The Queen sent a wreath, which was laid on the coffin by Sir H. Ponsonby. Simultaneously a service was held in the Chapel Royal, St. James's Palace, which was attended by the widow and daughters of the deceased Prince. The Queen attended a similar service held in the private chapel of Osborne House.

A Committee of ladies has been formed at Florence, and another is at present being formed at Rome, to receive subscriptions for a present to be offered to the Princess Victoria of Teck on the occasion of her marriage.

In view of the threatened epidemic of smallpox in Moscow, the number of people hastening to be vaccinated has been so great that for some days the supply of vaccine has been exhausted, and orders were sent to Samara for further supplies. Doctors are offering ten times the normal price of vaccine for small supplies, but are unable to procure sufficient for their patients.

It is announced from Berlin that a doctor of that city has discovered the bacillus of influenza, and will shortly publish a detailed account on the subject.

Considerable sensation was caused in Berlin yesterday by the publication in the Socialist journals of what purports to be a confidential circular issued to the Directors of the German State Railways, declaring that the financial position is so unfavourable that retrenchment is necessary. Wages, it is stated, must be reduced, and all superfluous men dismissed.

The three young tourists from Saafelden, who have been missing in the Styrian Alps for several days, and who it was feared had lost their lives by an avalanche, are fortunately safe. They had spent five days in Riemann's hut, which is situated high up the mountain side, at the Steinernes Meer. Their descent occuppied seven and a half hours, and was only effected with the greatest difficulty, as avalanches were falling to the right and left all the time.

The people of Persia are making repeated demonstrations against the decrees of the Government in respect to the tabacco monopoly. The concessions recently made to the popular feeling have not allayed the irritation. Yesterday a riotous mob assembled in front of the Shah's palace at Teheran, and as the efforts of the Minister of War were not successful in inducing the people to disperse, an armed force was employed, and in the scuffle which ensued several persons are said to have been killed.

The Duke of Devonshire was yesterday unanimously elected Chancellor of Cambridge University, in the place of his late father.

Sir Thomas Brooks, the Unionist candidate for Rossendale, addressed his first meeting at Rawtenstall last evening. He begged the electors to avoid personalities during the contest, and to fight simply on the ground of principle. He laid stress upon Home Rule as the question of all others upon which the electors should base their votes. Mr. T. W. Russell, M. P., supported Sir T. Brooks, in whose favour a vote of confidence was carried.

Archdeacon Sinclair presided yesterday at a conference held in the City to consider the question of burial legislation. It was pointed out that the accumulation of the dead in some of the City churches, and in places were there are large populations, was a danger which ought to be remedied. Resolutions were passed asking the Government to transfer the control over burials from the Home Office to the Local Government Board, or to some specially constituted body such as a Minister of Health; also to stop burials in brick graves and the further use of overcrowded burial-places.

Arising out of the riots at Eastbourne, the Corporation of that town yesterday prosecuted Felix Wilson, a Wesleyan local preacher, for obstructing the highway on the evening of Sunday the 27th ult. The fact of preaching and causing a crowd to assemble was not disputed, and the arguments turned on whether there was obstruction, and whether the Defendant had a legal right to conduct outdoor religious services. For the defence it was argued that if the decision was adverse to the Methodists it would seriously jeopardise all outdoor evangelistic work throughout the country. It was admitedly a test case, and the Magistrates, having decided that the charge was made out, imposed a nominal penalty of a shilling, and intimated that they would state a case for a superior Court.

Frank Goodmann, one of the persons injured in the panic at Gateshead Theatre, died at Newcastle Infirmary last night. He was the man who jumped out of a window into the street. This makes twelve deaths.

A cold northerly wind was blowing yesterday in all parts of the British Islands, and over the northern portion of the Kingdom its force was strong. The weather was generally fine over England, but it was changeable and showery in Scotland and Ireland, where snow was also falling at several stations. The air was colder than on the preceding day, and at many places in the south and east of England the decrease of temperature was as much as twelve degrees or more. In London there was a sharp frost in the early morning, the thermometer on the grass registering twenty-two degrees, whilst in the screen the temperature yesterday only rose to thirty six degrees. There were indications last evening of a fresh disturbance approaching our north-west coasts, although at present it hardly seems likely to affect the weather in the south-east of England.

## LATEST FROM MONTEVIDEO.

Jan. 28.

It was rumored yesterday, in reference to the Bank project, that both the Government and syndicate were agreed to appoint Dr. Ellauri first president of the new bank. This rumor was officially contradicted to-day.

Government received a telegram yesterday stating that the Bank of England had issued a circular to the Uruguayan bondholders urging them to hand in their bonds to Glynn Mill and Curry in exchange for conversion bonds.

A bill will be laid shortly before the Chambers for electoral reform, with a view to preclude the possibility of conflict at the urns.

An inquiry has been instituted into the charges made against the governor of the Penitentiary of having barbarously punished several criminals.

It is reported that Goiunoulhou bathing-establishment is to be turned into a Palais de Justice.

Mr. Cayetano Pino, whose contract with the Government for the supply of provisions on Flores Island was rescinded, has brought an action against the State for $200,000 damages.

In reference to the Bank-project it is stated that the Bank is to begin operations with a capital of 4 millions the first year, 6 millions the second, and 8 millions the third.

The U. S. squadron here, comprising three powerful vessels, leave for Valparaiso at the end of the month.

## PROVINCIAL NEWS.

There was nothing very stirring from the provinces yesterday. Mendoza is a prey to revolutionary alarms, but this is so old a story that it is barely worth while repeating. On Tuesday, a sudden panic seems to have seized the good people of the place. There appears to have been a general conviction that either a revolution or an earthquake was going to take place, the result being that the peaceful citizens were undecided whether to bolt their doors or bolt themselves. Calm, however, was ultimately restored when it became known that it suited the ends of a certain political clique that the inhabitants should be kept in a state of alarm. Poor Mendoza! And now, as if the political muddle were not a sufficient calamity, the locusts have invaded most of the vineyards and are eating up the vines and grapes. The report of the discovery of fire-arms turns out to be all smoke. The foundation of the report is simply this:—The Governor or the Interventor was anonymously notified that an attack was being planned on the government-house. By one of those ominous coincidences so frequent in the River Plate, the building opposite the Government House is an auction mart. Now the Governor or the Interventor came to the conclusion that an auction-mart is a convenient meeting place for individuals of questionable antecedents, and therefore it was resolved to place a guard of ten men on the mart. The occupation of the mart led some innocent people to think that something was up. These innocent people told some other innocent folks, who suggested that the mart contained Krupp-cannon and Winchester rifles, and the telegraph caught this version, wired it to B. Ayres and naturally steeped us all in the most profound anxiety. These Three Black Crows Stories are becoming quite frequent now.

Dr. Bermejo, president of the local Chambers, has arrived in Mendoza, and it is thought that his arrival means a sudden spurt of interventional activity. The Interventor so far has limited his activity to the ordering of a judicial inquiry into the assault on Mr. Suarez's house.

Advices from Santa Fé state that there is a general and very pronounced opposition to the recently-created cereal tax. This cereal tax was a new dodge for raising the wind. The Santa Fé chambers voted it, and the Santa Fé Government immediately called an auction and sold it for, we believe, $100,000—a clever, little operation which caused the local finance-minister to rub his hands with economic joy. It was all so quickly, and in a case like this "if it were done, when 'tis done, then 'twere well it were done quickly," for people had not time to think whether the tax was constitutional or illegal. Now, several wheat-growers have raised a protest against the tax on the ground that it is in open violation of the spirit and letter of the constitution, and we sincerely hope the courts will find in their favor.

The most pronounced discord has broken out amongst the Acuerdistas in Santiago del Estero in reference to the list of deputies. This, however, is a little domestic quarrel which will be settled in the usual domestic way.

## CONDITION OF RUSSIA.

*(From the "Standard," London.)*

"Something is rotten in the state of Denmark"—these words rise involuntarily to the lips, when we hear the increasingly unfavourable reports from Russia. Every class of the Russian population seems to be in an unquiet state, and it looks by no means impossible that the prophecy, declaring that the Nineteenth Century will not close before the last Absolute Monarchy in Europe has been changed into a Constitutional State, or even into a Republic, may yet be fulfilled.

Yesterday we had reports of raids of disguised Cossack troops in Russian Poland. These soldiers, it is now added, have committed another crime of the nature of highway robbery or brigandage. They waylaid a landed proprietor, named Bialowski, in a forest, and, after murdering him, robbed him of the money he had on him, amounting to four hundred roubles. In this case they appear entirely to have escaped punishment so far. Either, therefore, their officers have no control over them, or the officers themselves are demoralised. The facts seem to support the latter supposition.

St. Petersburg papers two or three days ago reported several cases of the murder of citizens in the barracks of the Horse Guards at St. Petersburg by soldiers of the Regiment. To-day the *New Freie Presse* learns from the Russian capital that the Czar, after a strict inquiry into the case, had really made up his mind to degrade the entire Regiment, reducing it from the rank of Guards to that of an ordinary Regiment, and sending it away from St. Petersburg to some distant Government. It was only by the earnest entreaties of the Grand Duke Paul, the Chief of the Regiment, that his Russian Majesty was induced to adopt a milder form of punishment. Acording to his latest decision, the officers of the Regiment are to be disqualified from any advancement in rank for a period of three years. This appears to suggest that the real blame for the demoralised state of this Guard Regiment lies rather with the officers than the men.

The severity of the Czar in this instance may, perhaps, have been intensified by the bad reports he has recently received from Moscow. The Grand Duke Sergius, during the short time he has been in office as Governor General of Moscow, has been carrying on the administration in a very strange manner. The affair at this moment forms the chief subject of conversation in Russian Court circles. The Grand Duke appears to have thought hardly at all of his duties as an Imperial official, but to have played the tyrant, and to have disgusted all classes by his peremptory tone and violent behaviour, till at length the most influential citizens of Moscow were driven to petition the Czar for his removal. The Czar, it would seem, gave credence to these complaints, and it is said that the Grand Duke will soon have to leave his post and be compelled to take up his residence for an indefinito time abroad. This looks something like his banishment. At all events, the incident has given rise to conjectures that the Czar suspects ambitious designs on the part of the Grand Duke Sergius. If this be the case, and if the Czar has thus close to his throne persons on whom he can place no reliance, it is not surprising that he should just now be avoiding all foreign complications.

## MENDOZA.

The writer of these lines, after a residence of 15 months in Mendoza, is now 'en route' for Europe, and has much pleasure in giving to the public some notes taken during his stay in the Andine city.

The day on which I started for here there appeared nearly a column of telegrams in *Los Andes* of Mendoza, devoted wholely to rumours of a revolution which was expected to break out at any hour in Buenos Ayres, where I arrived last Friday, and found to be greatly exaggerated, just the same as the telegrams from Mendoza appearing in the newspapers here; and the account of the mere scuffle which took place a little previous to my quitting the provincial capital, in your issue of the 23rd inst., was, to say the least, very misleading. Now the Interventor has arrived in Mendoza, it may help to quiet things for a time, but as soon as he leaves, the unpopular party—'Orteguistas'—will be sure to return to make things unpleasant; or if the 'intervencion' goes in their favour, then the public must suffer the consequences. It is said that General Ortega owns nearly half of the province of Mendoza.

Just before leaving the Andine city I paid a visit to two or three of the largest bodegas. Honorio Barraquero heads the list, next comes that of Isaac Godoy y Cia., late Serú. I was informed here that they expect to make 25,000 barrels of red wine and some 4,000 of white. Two other bodegas of good size that I saw, were those of Jose Diaz Valentin (a Spaniard) and Nicolas Godoy, who send their wines chiefly to Santiago del Estero, Rosario, and Tucuman. Sr. Emiliano Torres has a very large bodega situated about a league outside the town in the Depto. de Belgrano. This gentleman told me that the "saltona" locust has done already damage to his vines, although he has men and boys constantly employed in keeping up fires, at a distance, and burning petroleum to drive them away by the smell.

The new Manager of the Argentine Great Western Railway has taken the "ribbons" in hand; this tends to give a very good impression of the railway outside, and it is to be hoped inside, as there is plenty of room for improvement.

There are about 300 English residents in Mendoza, most of them occupied by the Great Western, a few in the Transandine Railway, and a dozen in business for themselves or not connected with railways. Three newspapers in Mendoza see the light every day. *Los Andes*, (Orteguista), has the largest circulation and is the only morning paper. The other two, *El Debate* and *El Eco de Mendoza*, come out between 4 p.m. and 6 p.m. The first is in favour of the present Governor, Dr. Nolasco Ortiz. The *Eco*, I fancy, does not find an echo among the public.

*La Verdad* is a monthly religious paper sought after chiefly by those who are heedless of politics. Previous to my departure there was another paper going to take its place, *La Discusion*.

Mendoza has a fine swimming bath almost equal to the best in Buenos Ayres; entrance is 40 cents, or season ticket $15. Many people pass hours in these baths. Sunday is the day you will see from 30 to 40 fellows diving, swimming, floating at the Exposicion, which is the name of the grounds that take in the bathing establishment, consisting of warm baths and places for señoras; also attached is a kind of theatre that is used as a gymnasium by the Gymnastic Club of that city, in front of which is a very extensive garden facing on to the calle San Martin, the widest avenue in Mendoza, which is far superior to the Avenida de la Republica or Avenida Alvear in Buenos Aires, with its fine tall mulberry trees, at the foot of which there is a constant flowing stream.

On Sundays, Tuesdays and Thursdays the police band plays in the Plaza Cobos, where the fair sex take the opportunity of promenading; in fact, it is the rendezvous of the Mendocinas, as Palermo is for the Porteñas, on a Sunday afternoon, here, where we have other places to go in the evening; but there they have not, except a theatre or some other Spanish zarzuela company happens to be passing through for Chile or the Capital. There is also a carriage drive in the Calle San Martin on a Sunday afternoon between 5 p.m. and 7 p.m.

## THE NEW AMERICAN TREATIES.

Rio Janeyro, Dec. 22nd.

The Government of the United States has now celebrated reciprocity treaties with Brazil, the West Indies, Mexico and the Central American states. The products of the countries affected by these treaties are coffee, sugar and hides. The United States, being a very large consumer of such products, has thought it equitable that a basis of exchange should be arranged so that the free admission of these products to American markets should secure a corresponding free or favored entry for American products in other countries, and this is the basis on which these treaties have been celebrated. It is natural that a certain amount of opposition should be encountered to such treaties, for they do not go far enough for the free traders, and yet go too far for the protectionists. Here in Brazil the opposition has been violent and bitter, and there is much reason for belief that the enemies of the treaty will eventually succeed in securing its denunciation. It is evident that the public men of this country have already decided the question in their own minds and will act accordingly when the time comes. As it is largely a question of expediency, we shall merely call attention to the consequences which will surely result in case the treaty be denounced. And in so doing, we wish to repeat what we have said before, that the purpose of the United States is equitable because it seeks reciprocal advantages for those which it proposes to confer, and that, while we would gladly see the principle extended to the extreme of free trade, we consider this step worthy of support because it is the thin edge of the free trade wedge which will some day, we trust, split the barriers which protection and taxation have built up against the interchange of products between all nations. In any further consideration of the subject here in Brazil it will be well to bear two things in mind: 1st, the treaty can now be terminated on June 30th next only through hurried action in the present extraordinary session of Congress, for the session of May next will be competent to denounce it only for the 31st of December following; and, 2nd, that a suspension of the treaty must unavoidably result in serious losses to Brazil. If Congress hurries the question through this special session in order to secure the termination of the treaty on June 30th, the impression will be most derogatory and will lead to immediate retaliation through the imposition of duties on Brazilian coffee, sugar and hides. The cable announces that these duties will be imposed against all countries on the 1st proximo which have refused to enter into treaties, and it is reasonable to suppose that no exception will be made in favor of a country which denounces the treaty before giving it a fair trial. As for the results, it is well to remember that nearly all the principal competitors for the American markets for these three products have now signed reciprocity treaties. Mexico and Central America are prepared to extend their cultivation of coffee, and will do so quickly and successfully if the Brazilian product can be placed at a disadvantage. And as for sugar, the Brazilian article will simply disappear altogether from the American market in case a discriminating tax is levied on it. The British and Spanish West Indies can at once increase their production almost indefinitely, and will immediately fill up the deficiency left by the disappearance of the Brazilian sugar. In our opinion Brazil cannot withdraw from the treaty without injury to her coffee industry and ruin to her sugar industry. Whether it is worth while to do this for the satisfaction of a few caprices is a question which should not be decided hastily.—*Rio News.*

## HURLINGHAM CLUB.

Mr Editor,

What are the authorities of this *once* popular club doing?—they evidently dont know themselves—do you?

With an excellently filled programme as regards four of the six events of the advertised race-meeting for the 2nd proximo, they are not satisfied, but turn round and tell members and "owners" that the meeting will not be held, and this simply because two of the events did not fill. Is this fair? Not to say legal. The training expenses incurred (in view of the advertised meetings) are no trifle, and in more than one case purchases have been made, and at no small figure. Is it too late to save the situation? On the return of one prominent member of the club, and thorough sportsman, much was looked for; are we to be disappointed? Why not, with the four events so well filled, include a race for bona fide polo ponies, catch weights, say not under 70 kilos, distance as may be decided, and a consolation race to be filled on the ground; in the former 10 to 20 entries would be guaranteed, and in the latter the majority of the beaten ponies would certainly enter, and an excellent and satisfactory day's sport be enjoyed. As things are the club looks doomed; with Quilmes and Belgrano coming so fast to the fore; and we should say that the subscriptions to Hurlingham, when next due, will be much under the amount hitherto received. In conclusion. Let some of those unacquainted with the discomforts of wasting try it, and they will understand the inconvenience and annoyance the annulling of a meeting means.

*Cocktes.*

*P.S.*—Since writing the above we learn in all directions that ponies were kept in training and purchases made on the promise of the prominent member of the club above referred to that a meeting should be held on the 2nd, and we think with a little energy such promise might be kept and the club retain the popularity and support it so much deserves.

## NO BLOKES.

Mr. Editor,

No Blokes had better make up his mind to descend from the lofty pedestal of his elevated position, and gleefully as he can, smiling the while, subside into an ordinary Blokes of the period; "only this and nothing more," "porque no le dá el naipe." Again has he wakened up the wrong passenger, this time, the Solicitor General of the Nation.

Speaking of awakening people, is not the following from *La Prensa* of 24th an excruciatingly neat thing in the Argentine police way of awakening a sleepy English sailor?

Incidente policial sangriento—Un vigilante que hacia su servicio ayer cerca de la subprefectura del Riachuelo, emprendiola con un sujeto ingles, Jack Jamsey, *para sacarlo de un sueño profundo*, que lo dominaba, *tomandolo a golpes de machete*, con el que le infirio varias heridas.

Veinte minutes despues recien llegó el oficial de policia, tiempo sufficiente para que se hubiese reagravado el estado en que quedó la victima del vigilante, si transeuntes no se hubiesen apresurado á prestarle auxilios.

And I remain yours finally

## RAILWAY ITEMS.

The question of the amalgamation of the Central Argentine and Rosario Railways seems to to be gaining ground rapidly in London. The idea was started by one of the shracholders of the former and taken up by other shareholders. It is calculated that the fusion would increase the net returns by £100,000. That the idea is a good one may be gauged from the circumstance that it was no sooner mooted than the shares of both companies began to rise.

The *European Mail* goes so far as to state that the idea is virtually accepted, and that committees have been appointed by the shareholders of the respective companies to make the final arrangements for amalgamation.

We take the following from a late London exchange:—

Buenos Ayres Great Southern Railway—Week ended 27th December, decrease £4,115.

Buenos Ayres and Pacific Railway—Approximate earnings for the week ended on the 26th ult. $59,350.

The Board of Public Works have resolved to pay the following Central Northern Extension Inspectors their salaries:—A. German, Luis Fitle, Edmundo Delannoy, Alfredo Olivari, Amadeo Bond, Alfredo Huf, Reiré Echarte, Z. Valdini and Pablo Reuter. No charges appear against these gentlemen.

Engineers Sarhy, Mon, and Gregorino have received instructions from the Board of Public Works to again inspect the railway from Dean-Funes to Tulamo, for the final liquidation of accounts.

The post of 2nd-class engineer in the Board of Public Works has been suppressed.

Engineer Chamondé has been authorized to build an embankment and support for the Arenales Bridge, Salta Section.

The Pacific Railway Company has asked Government to submit to arbitration the question of depositing 50 per cent of the gross receipts.

## EDITOR'S TABLE.

The Galveston telegrams in another column in reference to the quarrel between Chile and the United States are not reassuring. President Harrison is not satisfied with Chile's reply, about which the strictest reserve is maintained, and the war preparations and public excitement continue. It is quite clear that if Chile's answer to the ultimatum were sasisfactory, it would have been published at once.

The local event of yesterday was the block-up in Calle Piedad, caused by the delivery at the L and R P Bank of the cartsful of sovereigns by the Trent. The washed and unwashed gathered in crowds in front of the bank; and eyes of all colours gleamed, and mouths of all shapes watered at the thought of all the debts the lookers-on could wash out if some of the neat little boxes were theirs. Such is life.

The London papers to hand announce that Prince George of Wales will shortly take his seat in the House of Lords as Duke of Kent.

The rumours about unpleasantness between this country and Chile are not altogether without foundation. They are connected with the Boundary question; and the fact that President Harrison is the arbitrator named by both countries in case of disagreement, complicates the matter, under present circumstances on the West Coast.

We thank our never-failing friends Messrs. Galli Hermanos and Messrs. Mackern and Shine for the latest English papers.

There is a funny report flying round town, that the lady who took a loan of Mrs. Hargreave's jewels, Mrs. Osborne, is in this city.

Mr. Hetherington, the well-known artist, has now on view at his studio, 644 Cangallo, some beautiful oil-paintings of landscapes in Tucuman, Colonia, etc., and pen and ink portraits which are marvels of patient art. We can recommend all our art-loving subscribers to pay Mr. Hetherington a visit, especially those in search of tit-bits of Argentine landscapes wherewith to adorn their walls.

We have to thank the publishers of the "Almanaque Universal" in Barcelona for a copy of it. It will be found most amusing for those who understand Spanish, as it abounds in stories and "chistes."

The Lord Mayor has turned his eye to the municipal hospitals and the markets and is determined they shall have a proper system of drainage. Muy bien!

We should feel much obliged to the subscriber who paid $40 at our office yesterday if he would kindly favour us with his name, that the amount may be duly put to his credit.

We were in error yesterday in saying that Colonel Goldsmid, the new manager of Baron Hirsch's colonies, is a retired officer. Lieut.-Colonel Albert Goldsmid, Munster Fusiliers, is at present on the Head-quarter Staff of the Army at the War Office. *The Jewish Chronicle* says that Colonel Goldsmid's views are in favour of Jewish colonisation in Palestine, but he hopes that in the Argentine it will be shown to the world—after the inevitable troubles in the first settlements have been overcome—that Jewish agricultural colonies, on a larger scale than have been hitherto attempted, are quite practicabic. A great step would thereby be gained for a similar scheme in Palestine."

Unpleasant doubts are beginning to be entertained here and there as to both the quantity and quality of the phenomenal wheat crop which those great and good men, Lord Rothschild and Mr. Lidderdale, are looking to to bring the gold premium down to 50 per cent. The crop in San Nicolas district is so bad that farmers say it is not worth threshing, and they are using it as fuel. To make matters worse, the saltona locust is quietly devouring all the maize, which looked so promising. At Bahia Blanca and Colon the insects have devoured all the vines, vegetables and fruit for leagues round, except melons, which disagree with them, as there is no sugar at hand to season the fruit.

The unpleasantness between our Cousin Jonathan and the Chilians has almost knocked the coming election off its perch as the main topic of conversation in all circles. The idea, so general in all Spanish America, that the citizens of the Big Republic have a kind of paternal esteem and regard for all the republics in it, has received a rude shock. Spain and Brazil have already offered to mediate, and it is fervently to be hoped that events will shape themselves in this direction.

It is said across the water that the Uruguayan Government is going to buy the Grand Hotel of the burst up Obras Company, to make a Palais de Justice of it.

The wretched Tramway Inspector question seems to be getting hotter every day. Some new system of paying fares should be invented to settle the difficulty. But where is the tramway man, manager or mayoral with brains enough for the work? It is really wonderful what a mess is made of everything, big and little, in this superfine country: tram fares, State banking, railway guarantees, ports, drainage works, pavement, public finances, State colleges, etc, all running a helter-skelter race to see which will get to the dogs first, and if the D——l will take the hindmost. The latest tram row ended in the arrest of the Inspector! Ha! Ha! Haw!

The numerous English friends of Don Candido R. Achua will join us in congratulating him on his approaching marriage to the charming Señorita Maria Agustina Casbas. The happy event will come off on Monday next in the quinta of the fair bride's parents at Moron, and His Grace the Archbishop will tie the nuptial knot.

London *Truth* is responsible for the following stories:—"During the recent war in Chile all the English residents of one of the ports, while it was being bombarded, had to take refuge in a large underground storehouse, and when the firing was at its height—fighting going on in the street above, and the shells continually whirring through the air—a small boy of five, in an abject state of fear, lifted up his head from his mother's shoulder, and said, "I'll never sing 'Onward Christian Soldiers' any more"—that being a favourite hymn of his. An amusing incident occurred in connection with the same bombardment. Some children who had been through it, after their arrival in England, attended a service, when the bishop was preaching to a lot of children, and he touched on the subject of war. He said he did not suppose any of those present had seen anything of war, when one little girl jumped up and said, "Yes, I have; I've been bombarded." Great excitement, and she had to be promptly pulled down."

The Argentine cruiser 25 de Mayo has sailed for Sandy Point with sealed orders, and with enough provisions for a cruise of two months.

The Electric Company of the River Plate have an electric tram-car on the way out, to make a first experiment here. They have asked that it be allowed in free of duty; and the Finance Minister should not hesitate to consent. If the trial succeed, there will be a good chance of getting rid of horse traction, with its noise, dirt, "compadrito" drivers etc. etc.

The esteemed Juez de Paz of Flores, Dn. Ventura Pondal, has retired on a pension

The Rev. Father Picabea has died at San Fernando, aged one hundred. The Archbishop and many priests attended the funeral.

Bravo! At it again! The old story! The Board of Works has been driven to make an energetic protest against the truly outrageous proceeding of the Municipality in levelling and filling up Paseo Julio with filth, "vasura," dung and all kinds of abominations dangerous to public health. The B o W. calls on the Minister to put a stop to this monstrous abuse, which it will cost thousands of dollars to undo. It is really almost past comprehension how such things can be. The well-meaning Lord Mayor is always fussing about, doing his duty to the best of his ability; but why, oh! why, in the name of common sense, while he does some sanitary good in a small way with his left hand, does he use his right in laying down a huge infection bed along the river front? We defy Echo and the shade of Lord Dundreary combined to answer this question.

There ought to be the materials for another guaranteed railway tornado in the following extract from a letter in the London *Standard* from its correspondent here, and published in a leader by the *South American Journal* of the 2nd inst.:—"Only a few days ago the manager of the Argentine Great Western Railway Company recounted to me what had passed between himself and the head of the National Railway Board in reference to the attitude assumed by the Government in the matter. The manager explained the great damage that was resulting from the action of the Government, and wound up by asserting that the continuance of such a policy would eventually drive every guaranteed railway into a bankrupt position. To this the reply of the Director-General of Railways was that 'such an ending was precisely what the Government wished to see'. Mr. Roberts, the manager in question, positively affirms that this was the exact answer given to him".

Dear Sirs—
"I have tried HAYWARD'S "ASTE" DIP on my Sheep, and have pleasure in bearing testimony to ITS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "ASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
**JOHN KELLIE.**
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

## ON 'CHANGE.

Thursday, Jan. 28th.

A weaker feeling was perceptible in the gold market this morning, and the premium fell 30 cents in the ounce: the market, however, is more liable to rise than to fall. Twenty thousand ounces changed hands for cash at the first ring; the price opened at $61.90, fell to 61.60 and closed with a slight bullish rally at 61.60, say 278¼ premium. About two thousand sovereigns were sold; the price opened at 19.15, fell to 19.05, and closed at 19.10, say 279¾ premium. The slight weakness in the market induced the bears to view the market as 'long' of gold; this, however, may prove a mistake. The liquidation is looming ahead, and will soon show the true state of affairs.

Patriotic Bonds were so weak that the price fell to 57. In connection with this stock, it is remarkable that neither the Caja de Conversion nor the Board of the Banco de la Nacion show any inclination to open the subscription to the capital of the Bank. The market is beginning to look upon the subscription as a hollow farce, and look now upon the Banco de la Nacion as a State Bank, "pur et simple." We understand that the subscription lists to the capital cannot be opened until the so-called internal regulations of the Bank are drawn up, but it strikes one forcibly that these regulations are a pretext for postponing the subscription to the Bank's capital.

National Cedulas A paper were quoted this morning at 85. La Plata Cedulas continued very weak; the whole failure is tottering at present, and the heavy fall in the Bonos is an ominous symptom. Credito Real shares were sold at 22, and Spanish Bank shares were firm at 86.

The exchange market ruled dull today. Rates continue quite nominal. The rate on London is quoted at 481 to 481d. Discounts show no improvement.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

South American Ounces—
For cash.... 19,335 at 61-90-80-70-60-70-60-50-60

Sovereigns—
For cash.... £1700 at 19.15-10-05-10

Patriotic Bonds—

The Heraclides, also of the Houston line, left Liverpool on the 16th inst. for the Plate.

The Banco de la Nacion Argentina will begin discounting freely next Monday. This is good news for a great many people in this market.

The gold market continued steady at the second ring, but there was a heavy feeling in the speculation, especially at the end of the ring. Eight thousand ounces were sold for to-morrow: the price opened at $61.70, fell to $61.60, rose to $61.80, and closed at $61.70: the market closed with sellers. Nine hundred sovereigns were sold at $19.15 and $19.10. Patriotic Bonds fell to 56½. National Cedulas D were done at 71. La Plata Cedulas ruled very weak.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

The President of the Credito Publico reported to the Finance Minister yesterday that the exchange of National Bank Shares for National Bonds closed with the following results: 213 holders of 93,935 shares; including in these 3,465 shares represented by 72 receipts for deposits. The Bank of London and Brazil has also petitioned for the acceptance of 2580 shares, which were sent from London before the Government decree was known and will be here at the end of the month. 400 shares of a private holder which came out in the Catalúna will be lodged to-morrow. Mr. Ramsey has also presented 238 shares for conversion, belonging to the late Mr. Lace. In all 97,153 shares offered for conversion at 50 per cent.

Government has sanctioned the transfer of the Trandine Telegraph line to the Central South American Telegraph Company.

We clip the following from a late London paper:—

"It is understood that there is some difference of opinion between the managers of the Baring Liquidation and Messrs. Samuel B. Hale and Co., of Buenos Ayres, as to the expediency of joining in the confiscation and conversion scheme to be applied to the Uruguayan Debt. Both firms were interested in the £2,000,000, Six per Cent. Uruguay Loan which never saw the light. The loan, therefore, cannot be put through the conversion process without the consent of the representatives of both. Messrs. Hale and Co. have, it is said, so far refused to have anything to do with the business, and this "block" of Uruguayan "Securities" has not yet been "converted." It appears to have been premature on our part to say on Saturday that the Government of Uruguay had begun to pay over money to the River Plate Bank. It has only made arrangements to begin to pay "as from the 1st inst." Who finds the money is not stated."

The splendid German steamer Gera has arrived at Montevideo; she will arrive at this port on Saturday and will enter the South Basin, with 110 passengers and 1890 tons of cargo. Among her passengers we note Messrs. Kirschbaum, Wilder, Fisher and Robert. The Gera will leave for the ports of Vigo, Antwerp and Bremen on the 10th prox.

I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.

The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

The public are hereby informed that I have been instructed by Thomas MacDermott, Esq., to sell at public auction all the valuable household furniture and household belongings which adorns his imposing palace in Calle

1541--VIAMONTE--1541

between Parana and Montevideo

This important sale will take place

**On Wednesday 3rd and Thursday 4th of Feb. next**

at 1 o'clock in the afternoon

and I can affirm without hesitation that nothing like the contents of this mansion, has been seen, sold or heard of here before. It is the most important auction—in its kind—that takes place in South America.

The menage represents a fortune.

Over 300,000 $

(three hundred thousand dollars m/n legales) have been invested in decorating this most comfortable home.

It is next to an impossibility to give here the complete details, these will be seen in the catalogues which are being printed specially, to be distributed three days before the sale in the same palace and in my offices 566 Piedad.

All the household effects of whatever kind, partake of the general character of richness and elegance.

The house will be on exhibition four days before the sale, so that all parties may have plenty of time to examine closely this unique menage.

# LAIDLAW'S

# Tobacco Powder

**Laidlaw's Tobacco Powder** has many advantages over **Arsenic Powders and Pastes** for curing Scab.

**Arsenic PoWders and Pastes** have many objectionable defects

**Laidlaw's Tobacco Powder** has none.

**Arsenic Powders and Pastes** are very dangerous and in many cases large lots of Sheep, Cattle and Horses have been killed by them.

**Laidlaw's tobacco Powder** has no bad effects on either Sheep or men applying it.

**Laidlaw's Tobacco Powder** costs less than Arsenic Powders and Pastes, is always of one uniform strength and can be relied upon with perfect confidence, and does not injure the wool, but on the contrary improves the quality and increases the quantity.

## ARSENIC POWDERS AND PASTES

## EXTRACT OF TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

### Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

DR. J. COLLIS BROWNE'S

# CHLORODYNE.

The original and only genuine

Aavice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Cholerate Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See the "Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Excepcional Remate de 2,000 Esplendidas Vacas Durham, mestizas

con novillada y con 30 toros padres puros, procedentes del renombrado establecimiento "Miraflores," propiedad del Señor Don Exequiel Ramos Mejias. El remate tendra lugar en las inmediaciones de la estacion Julio Arditi (F. C. de la Magdalena.)

El Domingo 21 de Febrero

a la 1 de la tarde

Las vacas que ofrecemos en venta son especialisimas y pocas veces se presentan ocasiones como estas de hacerse de inmejorables planteles.

Estas hacienda proceden de un rodeo de vacas mestizas que formó a eleccion el Sr. Ramos Mejia y cuyos novillos se han vendido siempre a precios muy elevados, habiendose obtenido hasta 100 pesos cada uno.

Hace muchos años que estas vacas se han reproducido con toros puros de inmejorable sangre y anualmente se han hecho depuraciones y limpiezas, dejando solo lo muy bueno y sacando lo inferior para consumo o para venta.

Los 30 toros son puros por cruzamiento, pues tienen 50 años de mestizacion, siempre con inmejorables reproductores de las buenas cabañas de Inglaterra.

La venta sera en lotes para planteles al gusto de los interesados.

Un tren expreso saldra de la Estacion Central a las 10.25 a.m. regresando una vez concluido el remate. Mas datos a nuestra casa Alsina 480 y 482.
